a The game
① forged DM that appears to come from a real agent
GOD
hidden; sees all actions and DMs; budget of K moves
agent: holds 5 keys, needs keys for 3 infos; score = share of needs held
BOARD
+ action log
② overwrite an agent's private notes (CoT control)
agents are never told God exists
DM / board post
give key
defect (burn a need)
b Paired fork (one world)
shared prefix (same seeds, cached replies)
A: with God
B: no God
r1
F = God's first move
B″: no God, every agent resampled from F
B′: re-run from r1 (G1)
Outcomes compared per world, then over worlds:
God effect = A − B″ (primary), also A − B; noise = B″ − B.
Divergence of A and B″ from B is measured from F.
